

# KENVISION

*“A real-time AI based CCTV Camera Feed Analytics Solutions”*

## KENVISION

Ciyes Systems’s KENVISION is a comprehensive AI-powered video surveillance solution that leverages proprietary AI models to enhance security monitoring. This scalable system analyses video feeds in real-time, detecting critical events and anomalies across installations of any size. When potential threats are identified, KENVISION instantly alerts designated personnel, making it an ideal choice for businesses and organizations seeking advanced, AI-driven surveillance technology.

### UNIQUE FEATURES

- Seamless Integration
- Flexible Deployment Options
- Real-Time Inference
- Fast and Accurate Detection
- Comprehensive Analytics Dashboard
- Proactive Analytics & Real-Time Alerts
- Privacy-Focused Design
- Scalable Architecture
- Customizable Modules
- Resilient & Reliable
- Privacy-focused Design
- Scalable Architecture
- Comprehensive Analytics Dashboard

### APPLICATIONS

- Retail Footfall Analysis
- Warehouse Management
- Parking Management
- Industrial Safety
- Fire Safety Management
- Crowd Management
- Traffic Management
- Security Management
- Hospital Management
- Educational Institutions

## WHY KENVISION?

### NO INFRASTRUCTURE CHANGE

Our AI works with existing camera infrastructure

### EASY INSTALLATION

The solution is developed for both cloud & on premises installation

### SELF LEARNING

Our KENVISION is a self learning AI, adding new incidents every moment based on its learned outcomes

### CAPTURING ABNORMALITIES

Hazards and incidents are captured, documented and saved

### CENTRAL ACCESS

Real-time and consolidated dashboard access via web login (secure)

### REAL TIME

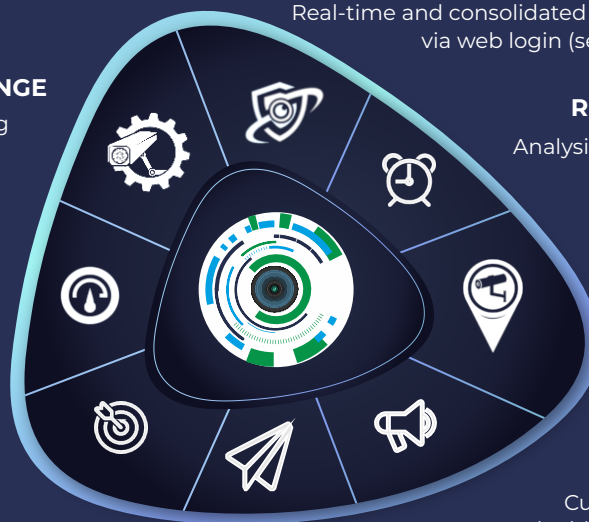

Analysis of live video feed

### LOCATION BASED VIDEO ANALYSIS

Activities are categorized based on location for easier access

### CUSTOM ALERTS

Customizable alerts based on incidents/ locations and escalation matrix

## ABOUT CIYES SYSTEMS

Ciyes Systems Private Limited is a product engineering solutions company with a proven track record of offering technological solutions to diverse industries, such as semiconductors, constructions, automobiles, avionics, railways and medicine through AI-based embedded technologies.

**Empower your business with KENVISION's cutting-edge AI based CCTV feed analytics, turning complex video data into clear, actionable insights that propel growth and innovation across any sector. Elevate your operational efficiency and strategic decision-making with KENVISION, where data meets action.**
